I benefit from listening to XM Satellite Radio channels. Satellite radio provides variety and quality that are not available elsewhere, especially in the Western US. I pay money for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to listen to. I urge the FCC to reject the NAB's petition 04-160 and to support satellite radio's ability to provide the variety and quality of programming that I desire.

Thank you,
Erin T. Witter
